# Spot small amounts

## Pack 3 - Woodland Adventure

Cut along the dashed lines. Use the cards at your own pace.

look and compare

Choose two cards. Which has more? Which has fewer?

Line up real objects to compare; no speed or number naming needed.

# Play together

**Pack 3 - Woodland Adventure**

Adult guide - adapt freely; never use as a test.

## Spot small amounts

1. Choose two picture cards and notice the quantities.
2. Ask "Which has more?" or "Do they look the same?"
3. Make matching rows with blocks for easier comparison.
4. Accept looking, pointing, moving or signing as answers.

### Make it accessible

Let the child choose: look, point, move, sign, speak or listen.

Keep groups small and use real objects alongside pictures.

Avoid timers, correction drills or pressure to perform.

Use larger safe items and supervise cutting and small objects.

*Supports playful early numeracy; does not diagnose or treat dyscalculia.*
