# Count and match

## Pack 3 - Woodland Adventure

Cut along the dashed lines. Use the cards at your own pace.

1 acorn

2 acorns

3 acorns

1 mushroom

2 mushrooms

3 mushrooms

1 pinecone

2 pinecones

3 pinecones

Place one real object on each picture.

Point, move or say the amount. Start with one and two.

# Play together

**Pack 3 - Woodland Adventure**

Adult guide - adapt freely; never use as a test.

## Count and match

1. Cut out cards if useful, or leave the page whole.

2. Invite the child to put one safe object on each picture.

3. Pair the same quantities. Start with 1 and 2; introduce 3 later.

4. Model counting by touching each picture just once.

### Make it accessible

Let the child choose: look, point, move, sign, speak or listen.

Keep groups small and use real objects alongside pictures.

Avoid timers, correction drills or pressure to perform.

Use larger safe items and supervise cutting and small objects.

*Supports playful early numeracy; does not diagnose or treat dyscalculia.*
